1. Introduction

The purpose of this document is to provide details of the new features and functionality that will be available with the next release of iWise

iWise 2017 T3 (Release date: 8th September 2017)

For additional information, e.g. details on bug fixes and additional minor improvements please refer to the Release Notes.

2. Module: Covers

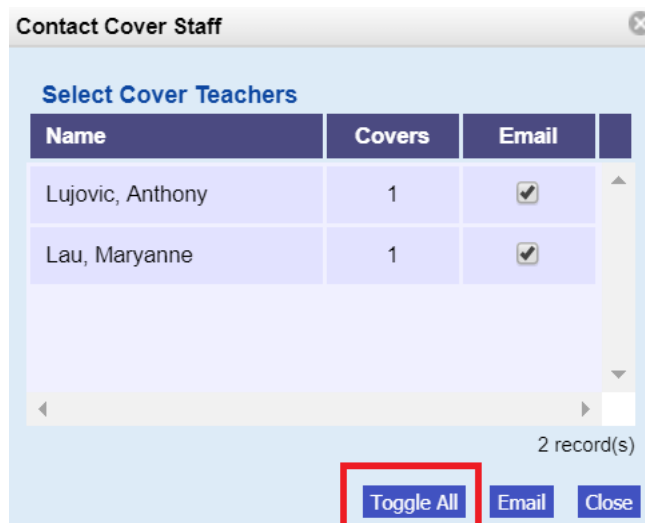

The following new features are available for the school administration module

2.1. Emailing Cover Teachers

A 'Toggle All' button has been enabled on the Email Cover Teachers dialogue box.

- This provides the ability to Unselect or Select All teachers who will receive an email.

3. Module: Calendar

3.1. Popups

When hovering over a class in the calendar, a popup would appear. It was reported that these popups were 'sticky' – i.e. It was hard to make them disappear. This has been resolved. The popups are more dynamic and will disappear when the mouse is removed from the object on the Calendar.
